

January 20, 2026

Senator John Kennedy  
7932 Wrenwood Boulevard, Suite AB  
Baton Rouge, Louisiana 70809

Dear Senator Kennedy,

The truth is that when the democratic process is restricted, preempted and nullified; democracy is under attack. Current actions by the president to circumvent the Constitution and weaken the power of the legislative branch of government is eroding America's democratic values and power to safeguard individual freedoms.

**Indivisible Baton Rouge (Indivisible BR)** is the local grassroots chapter of the national [Indivisible.org](https://Indivisible.org) movement. We are democracy in action, with a clear focus on impacting government at local, state, and national levels.

Today we call upon you to take the following three (3) actions:

1. **Remove** and convict Donald Trump, JD Vance, and members of the current administration's Cabinet for crimes against America and the American people.
2. **Remove** the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE) from America's cities through the rejection of increased funding, restriction of ICE and Border Patrol authority to conduct dragnet operations, and the removal and conviction of Homeland Security Secretary, Kristi Noem.
3. **Stop** the illegal use of aggression against other countries through actions including the War Powers Resolution and control of military funding.

Upon being sworn in to office you took an oath to support and defend the Constitution, solidifying your commitment to America's founding document, and not to a party or leader. **Indivisible Baton Rouge** reminds you of this oath, and now requires you as our elected official to uphold the basic premise of that document - popular sovereignty (power from the people), limited government, separation of powers, checks and balances, federalism, and protecting everyone's individual rights.

Sincerely,

Indivisible Baton Rouge
